

Gale Report:

1. Security Classification Guide : para 3 - we should recommend that SRI get copy.
2. Page 1 - para 2 - Do not agree that "avoid any persons with preconceived notions for or against"
3. Take exception to para C, page 4
4. Page 5 para 2b : we don't always tell analysts source of info → what happens when he (analyst) tells me it is correct!!
5. page 6 - para 2c : see notes (1)
6. page 6 - para 2d : see notes (1)
7. page 8 - para 6b : see notes (2)

- (via Vorona)
- ① Reaction report from Committee
to Tighe to LaBerge
a. En brief on own portion

① A. CIA: NO problems in their
- portions of Report

① B. JNScom: p 57 - "do well in RV"

① C. MIA: separate RV & PK

AMSAA : Knocked them for things
but originally had been
briefed & are being changed!

Dr Yang - assistant

DR YORE: was putting stop to AMSAA
MIA

AF : Not even mentioned
in Report - How can
Report be DoD effort, in this case.

Overall:

Kon

1. Committee not objective nor unbiased
2. Report Adds nothing
3. Scientific Issue
4. SRI - guidelines changed
- never carried through on certain
steps in process - varied technique
5. Did not use all info made available
to them.

Concerned that main reader
would draw wrong conclusions
& terminate program / basic
research in area.

MIA:

- 1. 2 people
- 2. 10 ~~at~~ closely held...
- 3. Total of 7 weeks - each
Feb - August
- 4. Send Schedule (proposed)
 - two that show to promise

proposed schedule

If There is only
one thing I can say
about this report I
would chose to talk about
paragraph 2d, ANNEX 8
page 70.

The comment
shows a blatant disregard
for the obvious facts. The
author is clearly not playing
with a full deck.
